THE illustrated lecture given by Rev. G. W. Dean in the Methodist church on Friday evening, was well attended. An account of a trip made by the lecturer from Kananaskis to Revelstoke on a railway velocipede was listened to attentively and with great interest, which was enhanced by the stereopticon views of many of the most beautiful scenes of scenery to be found in the Rockies and Selkirk. Next to an actual trip through the Rockies, this lecture, illustrated as it was, would give a better idea of the beauties and wonders on this part of the C. P. R. line than could be gathered in any other way.

Winnipeg Commercial: Rev. Father Morin, immigration worker, arrived in Winnipeg last week from Kansas, where he has been actively engaged in preparing for the removal this spring of over 200 families to the Canadian west. Father Morin leaves on Monday for Ottawa to interview the government on the subject. He would like a grant of \$100 to each family to assist them in coming north, and he guaranteed that each family would bring up with them at least ten times this amount in effects, such as horses, implements, &c. The farmers have not had a crop in this particular district of Kansas for three years, and farms for which \$5,000 and \$6,000 was refused three years ago, cannot now be disposed of for any money. Father Morin is confident the government will assist him.

A COPY of the petition from the Roman Catholics of Canada asking the governor in council for relief for the Roman Catholics of Manitoba from the disabilities at present imposed upon them by the Manitoba school law, has been in circulation in this district for some days past. All these petitions must be in Ottawa by Feb. 15th, when the government will be pressed to take action. The petition does not specify the form of relief desired.

THE board of trade meeting which was to have taken place to-morrow evening, has been postponed until Tuesday evening, Feb. 12th, at 7:30, in the town council chamber. The postponement is on account of the expected arrival of the government freight rates commission to-night. The commission will commence its sitting to-morrow afternoon at three o'clock and as the time of the members is limited they might wish to sit at night, it has been thought best to postpone the board of trade meeting.

A FOOTBALL match took place on Saturday between Edmonton and South Edmonton junior public school teams, resulting in two goals for Edmonton to none for South Edmonton. The Edmonton team was: R. Bellamy, captain and goal; Oakley Bush and D. Laderoute, backs; Geo. Young, John McDougall and Stanley Dean, half backs; W. Young, F. Young, C. Chinnick, E. Robertson and J. Wylie, forwards. Kelbie Sutherland was captain of the South Edmonton team.

A MEETING to vote on the organization of Mill Creek school district, was held on Friday, Feb. 1st. The vote resulted in favor of forming the district and August Schatz, Ferdinand Wessenberg and John Hensckel were elected trustees. The school house is to be located on the southwest corner of section 2, township 52 range 24, in the centre of the district. The settlers have agreed to haul the logs for a school house 20x30 this winter, for nothing, each settler to bring a 20 foot and a 30 foot log. The contract for the erection of the building will be let in the spring.

RAILWAY COMMISSION.

A TELEGRAM was received on Friday stating that the railway rates commission would sit at Edmonton on Tuesday at 15 o'clock, that is at 3 o'clock in the afternoon. The commission will arrive on Monday's train. The notice is short considering that the commission moves about and arranges dates at its own will and pleasure, and therefore could quite as well have given such notice as would have enabled people interested living at outlying points to attend and produce evidence. However, as far as Edmonton is concerned the notice is long enough. Thanks to the timely action of the board of trade and the energy and industry of the secretary, the case as regards Edmonton is in very fair shape for presentation. There are some figures which are required for comparison that are not at present available, and that could be secured if more time were allowed, but sufficient comparisons have been made to show that the discrimination against all western traffic except through traffic is very great, and that the discrimination against Edmonton is greater, both as to incoming and outgoing freight than to any other far western point. While the case has been carefully prepared and the figures speak for themselves, it is altogether advisable that all parties directly interested in freight matters, having a personal acquaintance with rates, should be present not only to back up the figures prepared by the board, but to see for themselves from the demeanor of the commissioners in whose interests they are travelling and working.

EDMONTON BULLETIN, FEBRUARY 4TH, 1895.

FREIGHT RATES.

Manitoba and the Northwest owe a very considerable debt to Mr. Jas. Ashdown of Winnipeg for the able manner in which the case for the West in the matter of freight rates, which was presented to the railway commission by the Winnipeg board of trade, was prepared by him. There has always been a mystery surrounding western railway rates which it seemed impossible to dispel. If at any time a complaint were made as to discrimination or over charge that seemed to require a public reply such a mass of figures was produced and such comparisons made as simply bewildered the unfortunate public and they were ready to accept any plain statement, whatever it might be, rather than go into the figures set before them. Even so astute a person as the Vancouver correspondent of the Winnipeg Commercial, after a short talk with the C. P. R. people at the western terminus regarding comparative rates to West Kootenay, came to the conclusion either that he did not know anything about it or that the C. P. R. was a philanthropic institution run entirely for the benefit of the public. Particularly it has been impressed upon the people of Canada that the C. P. R. gave better rates than like roads in the United States, the large United States business done by that road being instanced as proof. The recent presentation of the case for the West compiled by Mr. Ashdown has put an entirely different face on this question. It has been shown that it is not only possible to arrive at an understanding of the rate sheets of the of the C. P. R. but also those of other lines, and that the understanding proves conclusively that the principle governing the imposition of freight rates in Manitoba and the Northwest is simply the principle of charging all that the traffic will bear, a principle which it has been possible to put in practice by reason of the protection against competition afforded by the Dominion parliament, not only in the original charter to the company, but also in the whole course of railway legislation since. The statement shows clearly that no account is taken by the company in its traffic rates of the aid which has been granted it or the purpose in view in the granting of that aid, namely the development of the Northwest. It is as well to keep in mind that the reason of the agitation against the present freight rates did not arise from merely sentimental causes or was produced by the spreading abroad of fine spun arguments based on a difference of a fraction of a cent per ton per mile. It arose because of the great drop in the price of agricultural products which has taken place in late years without any corresponding drop in freight rates, by reason of which the rates have become "more than the traffic will bear." Nothing short of this could have aroused the people to question even for an instant the beneficent dispensation of the C. P. R. If the fall in prices had been accompanied by any compensating or partly compensating drop in freight rates it would have been impossible to induce any agitation such as has taken place. But now that the agitation has been started and people have had their eyes opened to the injustice of the western rates which are out of the reach of competition they will certainly not cease their demands until the rates are reduced to an equitable basis either by government control or by the construction of competing lines.

BRITISH PACIFIC RAILWAY.

The Province, a literary journal of Victoria, B. C., publishes the prospectus of the British Columbia Syndicate, which has been issued in London, England. The line is to start from Victoria on Vancouver Island, cross to the

main land at Bute Inlet and run by way of Cariboo to the Yellowhead pass a distance of 643 miles. The estimated average cost of construction and equipment is £4,000 per mile. The prospectus says: "The line generally traverses fertile belts of heavily timbered and well watered grazing and farming land, specially adapted for settlers, and capable of supporting a thriving population, as the climate of British Columbia is admittedly superior to any in Canada. The railway is essentially a government undertaking for opening up the province and developing the resources of the colony. It is intended later to continue the line from Yellowhead pass eastward to Edmonton, Battleford, Prince Albert and Portage la Prairie, thus creating another transcontinental route and opening up the rich plains and coal fields of North Alberta and Saskatchewan, ranked as two of the finest provinces of the Dominion." The province of British Columbia is expected to grant 2,860,000 acres of land for the construction of the railway, and to guarantee interest on \$5,000,000 of bonds. The City of Victoria is expected to guarantee interest on \$2,000,000 bonds and give terminal facilities to the extent of \$1,000,000. The Dominion parliament is expected to grant a subsidy of \$3,200 a mile or \$2,050,000. The scheme is a large one and may or may not materialize just now, but the aid asked is not unreasonable and the railway if built would be most valuable, especially to the Saskatchewan valley. It is a road that should be built some day as the legitimate competitor of the C. P. R., and every thing in reason should be done to hasten its building, or if that would be asking too much, at least nothing should be allowed to be done that would stand in the way of its construction at any future time. This was the original and alternative route of the C. P. R. and it was to the possibility of its construction and the desire of the C. P. R. to head it off, that the Saskatchewan valley owes its two branch lines, rather than to a desire to develop the country. The energy which caused the construction of these lines to head off such an enterprise as the British Pacific may be depended upon to be brought in play to oppose and thwart the present project in all its stages. This was done when the Galt company desired to extend their line across the mountains to the silver region of West Kootenay so as to have the ores and coal necessary for smelting them on the same line. That enterprise was deliberately choked off by the parliament of Canada at the instigation of the C. P. R. and on the promise of that company to build the line that the Galt company wanted to build. In proof that this was promised the C. P. R. started to grade a line to the mountains from MacLeod. The line was never completed and the silver ores of West Kootenay that should now be smelted at Lethbridge—that infallibly would have been had the Galt company been allowed to proceed with their enterprise—are being shipped to Omaha or Seattle, where the greater part of the value is paid out to United States laborers or pays interest on United States capital. This is what has been done in the south, it is what will be done in the north if people do not look more sharply after their own interests.

The schooner Starling of Belleville has been burned.

The Free Press evening edition of January 27th, contains the full text of the judgment delivered by the Privy Council in London the same day on the Manitoba school case, filling over two columns of the paper. The Free Press says: The effect of the appeal will confer upon the Roman Catholic minority the right to appeal for remedial legislation to the governor-general-in-council, simply, and not to the courts, the legal aspect of the question having already been settled by the former decision of the privy council. Upon receiving the petition above mentioned, it will then be for the governor-general-in-council to consider what means of relief, if any, should be afforded, and to submit the same to parliament in the form of an act. It is therefore, a question for the Dominion government to deal with, but in any event, the public schools of this province, as at present established will not be disturbed. Should the Dominion parliament give permission to the Catholics of the province to maintain their own separate schools, and to be only liable to be taxed for the support of their own schools, it would be an interference with provincial rights which Manitoba would be unlikely to tolerate.

"The Japanese have met with a serious reverse at Wei Hai Wei."

The Pope has decided to establish an apostolic vicariate in Wales.

Two additional battalions of Italian troops have left for Massowah.

The Thompson memorial fund received by Hon. Mr. Foster amounts to \$17,281.

It is asserted that Chamberlain has agreed to join the conservative unionist ministry.

An attempt was made on Tuesday morning, Jan. 29th, to burn the old Empire building, Toronto.

Reginald Sanderson, who murdered an unfortunate woman in London, last November, has been adjudged insane.

The Nor-Wester says: The hardest half of a political battle is fought in the preparation of the lists, and the success of the friends of the government in this particular is a happy augury of even greater victory on polling day.

Regarding the Manitoba school case attorney General Sifton said recently: "If they (the Dominion government) undertake to interfere with the school legislation in any way, shape or form, there will be a deadlock certainly. The province will be readjusted with provincial rights."

Free Press: Members of the Winnipeg Grain Exchange recently had an interview with the local officials of the Canadian Pacific railway regarding a reduction in the tariff for carrying seed grain between any points in the country at half the scheduled rate. Arrangements are also being made to procure samples of good seed wheat which will be placed in the hands of C. P. R. station agents whose instructions are to lend assistance to the farmers. These concessions on the part of the railroad company will prove of much benefit to the agriculturists.

Nor-Wester: Archbishop-elect Langer was interviewed this morning in the parlors of St. Mary's presbytery in connection with the decision of the Privy Council upon the Manitoba school case. He did not seem to be at all surprised at the outcome, in fact he said that all Catholics expected it. "What do you expect to be the result of this," said a reporter to the rev. gentleman. "I cannot tell you any more than that we Catholics will continue to demand redress of our grievances, until redress be given. On Feb. 15, a petition will be laid before the governor-general-in-council. That petition will be signed by every Catholic of the Dominion. This question is no longer confined to Manitoba; it now is of interest to the Catholics of the entire Dominion, and regardless of party we Catholics will be one unit. The hierarchy of Canada is one on the point. To-day the school question is more alive than ever. We feel that our rights will be restored."

Morden Herald: The last ten years the country has prospered very little, but in that time the capitalists have become richer and richer, the farmer has become poorer. The man who toils hard has had the satisfaction of seeing the country grow somewhat richer, but he hasn't got a dollar of it himself. All we ask for the people of Lisgar is that they be allowed to buy in the cheapest market and to sell in the dearest. They are willing to pay a good round freight rate both ways, and are well able to do so, but we ask in justice to ourselves, that we be no longer compelled under the form of law, to be ploughers of the soil and reapers of wheat for the benefit of others. We do not ask any bonus from any one, we do not ask to be bribed with government paper or promises of public works, but we do want fair play, and our part in getting it is to send to Ottawa a man who will do all in his power to get us simple justice. We have indicated the kind of man we want, an honest, reliable, able man, just such a man as we would engage to go to Ottawa to work for our interests if we were paying him five dollars a day each for doing it.

Bellamy—Kelly moved that W. A. Oliver be re-appointed engineer of the fire department at a salary of \$60 a month his duties to be defined by the fire water and light committee.

Strang—Bellamy moved that Dr. E. A. Braithwaite be re-appointed medical health officer at a salary of \$240 per year subject to his signing a contract to be drafted under the direction of the health and relief committee to be submitted to the council at the next regular meeting.

Strang—Bellamy moved that the letter of P. Heiminek & Co. be laid on the table.

Strang—Edmiston that the letter from W. A. Oliver re. chemical engine be referred to the fire water and light committee for report.

The reports of the fire water and light committee and the license committee were received and adopted.

By-law No. 90 was read a first time.

The report of the finance committee was adopted on motion of Cameron and Bellamy.

Picard—Strang moved that the board of works be a committee to interview Mr. Heiminek with reference to the closing of the trail between Cameron's and Sutter & Dunlop's stores and report thereon to the council.

Edmiston—Strang. That the solicitor be instructed to procure copies of any field notes of surveys of the trail reserved on the patents of D. McDougall and the Methodist mission.

Cameron—Bellamy moved that the time for the return of the collector's rolls now in his hands be extended to the 1st day of March next, inclusive.

Strang—Cameron moved that the clerk be instructed to call for applications for the position of assessor for 1895, remuneration \$120.

POPULAR LAKE.

A very successful social was held here on Tuesday evening, Jan. 29th, in the house of Jas. McDermid, and was in aid of the salary of the Baptist minister Mr. McDonald, who has been very mindful of the spiritual wants of the district the past year. After an excellent tea, served by Mrs. John Kennedy and others, C. M. Woodworth was called upon to preside, and in his usual humorous style introduced the following programme: Song, by Miss Jessie Mitchell; recitation, Mr. C. W. Mathers; song, R. McIntyre; recitation, Miss Magee; song, "Auld Robin Grey," Miss Bangs; recitation, Miss Rye; duet, Messrs. J. Ferguson and T. Griffen; address, Mr. W. B. Briggs; song, Miss Winnie Shand; address, Mr. J. Meneely pianoforte duet, Miss Mitchell and R. McDonald; song, Mr. R. McIntyre; recitation, Mr. C. W. Mathers; song, Miss Magee. Several tableaux were given by a number of the ladies and gentlemen. Proceeds of the evening \$18.

At a meeting of farmers held in this district lately it was unanimously decided to petition to get Poplar lake and Horse Hills settlements formed into a statute labor district.

At a meeting of the Patrons of Industry on Monday evening, two new members were admitted and one application received.

Brantford Examiner: Here is how the N. P. has worked. According to Mr. T. J. McBride, Northwest manager for the Massey Harris company, the following makers of agricultural implements have failed or have withdrawn from business:

Brown & Patterson, Whitby.
Haggart Bros., Brampton.
Haggart & Cochrane, St. Thomas.
Johnston, of Milton.
Gowdy & Company, Guelph.
Cochrane, of Dereham.
Lawrence Bros., Palermo.
Dundas Harvester Works.
McKittick Bros., Orangeville.
Kilgour & Sons, Mount Forest.
James Laidlaw & Company, Paisley.
Thompson & Williams, Stratford.
Chatham Harvester Company, Chatham.
Gencer Bros., Alliston.
J. O. Warner & Son, Brantford.
Patterson Brothers, Woodstock.
Globe Manufacturing Company, London.
John Elliott & Sons, London.

If the N. P. is to be given credit for the growth of the Massey Harris concern, is it not also to be made responsible for the business wrecks that have been its accompaniment? If Toronto and Brantford have been benefited to any extent from the concentration of capital that has taken place, how many smaller places have been absolutely ruined thereby?

STREET RIGHTS.

As will be seen from the town council report published elsewhere in this issue, a threat has been made by the real estate firm of P. Heimick & Co., to close the street in front of John Cameron's and Satter & Dunk's stores. To-day men are at work giving effect to the threat made. The newly elected town council has a duty to perform in this matter which it is to be hoped it will not shirk. The piece of land in question is used as a street at present, is a part of the old trail reserved as a trail out of the patent of the property granted by the crown. The value of a large amount of the business property of the town would be depreciated by the closing up of the street as proposed by Mr. Heimick. The control of the streets of the town rests with the council of the town and also the duty of protecting the interests of the ratepayers in those streets. The council is plainly called upon in the line of its duties regarding keeping free from obstruction the streets of the town to not allow the obstruction of this particular street for a part of a minute. To do so is to acknowledge the right of Mr. Heimick to block the street. To remove forthwith any obstruction that may be placed upon it is an assertion of the proper authority of the town, which the circumstances demand shall be made.

Winnipeg Tribune: Reduction have not yet ceased at the C. P. R. shops and cuts are being made in every possible direction. While some hands are being discharged entirely, others are put on still shorter time and the wages of the apprentices are being reduced to a lower figure than they have ever been before.

Mr. Thomas Cochrane, the Calgary gentleman who is aspiring for Dominion parliamentary honors, must be a person of very limited intelligence, or like the Chelsea philosopher must think that people are "mostly fools." Perhaps they are, but it is not always wise to advertise that one thinks so, especially when one wants something from the fools. It is to be feared that Mr. Cochrane has committed this error—that is, leaving out of the question the first alternative—by writing a letter which has been published in the Lethbridge News, outlining his policy. He says, first that he is not a cast iron adherent of either of the two political parties, and then goes on to add that he will give a general support to the conservatives. Immediately afterwards he asserts that he is in favor of tariff for revenue only and then winds up his letter by advocating free mining machinery. Now as tariff for revenue only is the policy of the liberals, as it is the distinctive plank in the platform which separates them from the conservatives and the national policy, it is difficult to understand how Mr. Cochrane can give a 'general support' to the conservative party and advocate the leading policy of the liberals. This attempt to run with the hare and hunt with the hounds is too transparent and is a very poor compliment to the intelligence of the electors of Lethbridge or Southern Alberta. Mr. Cochrane should have rounded out his platform by declaring himself the "workingman's friend"—it wouldn't have made it any more ridiculous.—Macleod Gazette.
